Considering children with Multisensory Impairments in the context of Autism Spectrum Disorder

Presented by Dr Daniel Gadke

On-Demand Presentation

In this presentation, Dr Daniel Gadke will discuss the intervention needs of children with multi-sensory disabilities in the context of autism spectrum disorders. Dr Gadke will review general intervention approaches and frameworks that are appropriate to support students with multi-sensory disabilities and/or autism.

When implemented with fidelity in a Multi-Tier Systems of Support (MTSS) model, evidenced-based intervention can elicit success and improvement in performance among students with multi-sensory disabilities.

Learning Outcomes

- Participants will learn to identify the differences between Autism Spectrum Disorder (ASD) and Multi-Sensory Impairments (MSI)
- Participants will learn to identify explain the basic structure of Multi-Tiered Systems of Support (MTSS) in an educational setting
- Participants will learn to identify consider interventions for individuals with ASD and MSI in MTSS.

Fully online, self-paced learning accessible for 4 weeks following registration

Victorian Department of Education staff can access this learning free of charge. The cost for non-Department staff is \$30.00 incl. GST.

Participants who successfully complete this On-Demand Presentation will receive a certificate noting 2 hours of professional learning.
